

# INDONESIA COUNTRY REPORT

ON

## AMPHETAMINE TYPE STIMULANT (ATS) SITUATION AND DRUG SYNDICATE IN INDONESIA

Presented by

**INDONESIAN DELEGATION**

BANGKOK, 28-31 July 2009

# GENERAL

Development of illegal drugs trading and distribution has become a global issue and has been a global threat to the livelihood of human nation

The circulation of Amphetamine Type Stimulant (ATS)/ Psychotropics with its implication is a big problem and gives negative impact to national and international scale; pose a serious threat to the health security and welfare of human beings and real danger to the stability and security of the Nation and constraints national development program.

# NATIONAL DRUGS SITUATION

Indonesia which was previously known as merely a transit and market area for ATS, now has shifted to an important ATS production area as indicated by the high and increasing number of clandestine ATS lab raided in the last five years.

# General Situation

- Geographical Position
- Islands :  $\pm$  17.500,  
Coastal Lane:  $\pm$  85.000 Km2.
- Population :  $\pm$  250 Millions  
(40% Young Generation).
- Difficult to control :  
Market, Transit area, Illicit producer
- Many of *Entry Point* : lack of control
- There are 22 *Airport Point for International flight* such as:  
Soekarno Hatta, Polonia, Ngurah Rai, Samratulangi, Sepinggan, Adi Sucipto, etc
- There are 124 *Seaport Point* – most of them are Major Seaport include container seaport

**Note:** not include Illicit Seaport

**MARKET RULE**  
(Supply  $\leftrightarrow$  Demand)

# POLICY

## Control of legal precursor in Indonesia :

- o Law No. 23/1992 Regarding the Health.
- o Law No.8/1996 Regarding The Ratification Of Convention on Psychotropic Substances 1971.
- o Law No.5/1997 Regarding The Psychotropic.
- o Law No.22/1997 Regarding The Narcotics.
- o Government Regulation no.72/1998 regarding the Pharmacy and Medical Devices Security.
- o The Ministry of Industry and Trade Decree. No. 647/MPP/Kep/10/2004.regarding Regulation of Importing Precursor.
- o Ministry of Health Decree No. 168/Menkes/Per/II/2005, regarding the Pharmacy Precursor.
- o Ministry of Trade Decree No.5/2007. regarding regulation of Precursor Exporter.

Notes : It is being proffered the revision of Narcotics Law No. 22/1997 and planning draft revision of Psychotropic Law No. 5/1977 and draft Law of Precursor.

## The policy in regulation include :

- Arranging the ways of exportation and importation
- Controlling entry port and port destination by customs and surveyors.
- Oblige importer to record and report every movement of precursor.
- Extending Punishment administrative, such warning until permit expire.
- Oblige the company to keep and carry out correctly.

# Conclusion

- Indonesia has done many efforts to combat drugs.
- Capacity Building for law enforcement personnel is needed to enhance the knowledge to face the ATS trafficking and abuse.
- Bilateral, Regional and International cooperation is needed and should be enhanced.

THANK YOU
