

UNODC

United Nations Office on Drugs and Crime

Review of DAINAP data submissions and general observation

OVERVIEW

DAINAP Recap

Data submission status (2009)

Improvements (after one year)

Data quality - challenges

What is DAINAP?

- Drug Abuse Information Network for Asia and the Pacific (DAINAP) is an online drug-data collection and sharing system for ASEAN countries and China
- Designed and implemented by all 11 participating countries with the assistance of UNODC projects (F97 and F73)

Type of data gathered by DAINAP

- **Quarterly data**
 - Drug seizures
 - Arrests
 - Precursors seizures
 - Production facilities seizures
 - Price
- **Annual data**
 - General trend of drug abuse
 - Admissions
 - Treatment services
 - IDU
 - Scientific analysis (forensic)
 - Cultivation
- **Data gathered on as available basis**
 - Special studies
 - Information on data sources

Data are shared in timely fashion

Seizures, arrests, lab dismantled and price

Quarter	Data period	Submission deadline
1	January – March	June 30
2	April – June	September 30
3	July – September	December 30
4	October - December	March 30 (following year)

Treatment, general trend, scientific analysis (forensic), HIV/IDU, cultivation, etc.

Year	Data period	Submission deadline
1	January – December	June 30 (following year)

Why DAINAP?

- Dynamic nature of drug situation in the region
- Edge over global data sharing
- Commitment to ACCORD Plan of Action

6. Network and specialised studies submissions

- Only one study reported since 2005
- Only China, Malaysia and Singapore update network information in past two years

OVERVIEW

DAINAP Recap

Data submission status (2009)

Improvements (after one year)

Data quality - challenges

Desegregation

Drug treatment (admission data)

Country Viet Nam
Year 2009

Admissions are divided into two sub-indicators: NEW ADMISSIONS (individuals who have entered a treatment program for the first time) and ALL ADMISSIONS (both new admissions and re-admissions). Comments/remarks/clarifications regarding each drug type are in the Remarks Box.

NEW ADMISSIONS

Drug Type	Male	Female	Total	Average age	%IDUs	Remarks
Cannabis						
Heroin						
Opium						
Cocaine						
Methamphetamine						
Ecstasy-type						
Ketamine						

ALL ADMISSIONS

Drug Type	Male	Female	Total	Average age	%IDUs	Remarks
Cannabis						
Heroin						
Opium						
Cocaine						
Methamphetamine						
Ecstasy-type						
Ketamine						
All type of drugs			64809			All admissions of all drug type in Vietnam

Incomplete information

Services for ATS users

Country Malaysia
Year 2009

This indicator focuses on ATS abuse in the country. The most common locations for treatment sought by abusers are identified and ranked in order from the most likely location (1) to the least likely. Treatment modalities are also identified (e.g., detoxification, counselling, medical care for other health problems, etc). Comments/remarks/clarifications regarding treatment are in the Remarks Box.

Treatment Locations	Treatment sought	Ranking	Treatment Modality	Remarks
General health clinics	Yes			
General practitioners	Yes			
General hospitals	No			
Psychiatric facilities	Yes			
Monasteries/Religious institutions	Yes			
Traditional practitioners/healer	Yes			
Specialised drug treatment services	Yes	1		
Drug treatment services within prisons	No			
Non-government organizations	Yes			

Need of better explanation

Illicit drug production facilities

Country **Philippines**
Year **2009**

Number of illegal drug production facilities (clandestine labs) seized and relevant information.

Note: The following data covers all quarters.

Drugs Manufactured	Total	Large	Small	Tableting
ATS	9			

Quality forensic data still a need

Purity of powder drugs (large seizures)

Country Indonesia
Year 2009

The following table provides the information on the number of samples from large seizures analysed and whether the average purity of powder drugs in those seizures was low, medium or high. The data refer only to powder drugs, not to pills or tablets.

Definitions/comments/remarks/clarifications should be provided for each drug type using the Definitions/Remarks box.

Drug Type (powder drug)	No. of samples analysed	Low	Medium	High	Remarks/Clarifications
Heroin	40	70			

Inconsistent way of entering data

Q1/2008

Drug Type	NATIONAL			NON-NATIONAL			Remarks
	Male	Female	Total	Male	Female	Total	
TOTAL ALL DRUGS							13993 all of arrested

Q2/2008

Drug Type	NATIONAL			NON-NATIONAL			Remarks
	Male	Female	Total	Male	Female	Total	
TOTAL ALL DRUGS			19579				all of PERSONS ARRESTED

Q3/2008

Drug Type	NATIONAL			NON-NATIONAL			Remarks
	Male	Female	Total	Male	Female	Total	
TOTAL ALL DRUGS	17708	3405	21113				including non-national

Q4/2008

Drug Type	NATIONAL			NON-NATIONAL			Remarks
	Male	Female	Total	Male	Female	Total	
TOTAL ALL DRUGS	60425	11729	72154	604	602	1206	including whole year

End up in wrong figures

Drug Type	NATIONAL			NON-NATIONAL		
	Male	Female	Total	Male	Female	Total
TOTAL ALL DRUGS	78133	15134	112846	604	602	15199

Other problems

- Typo errors
- Inconsistency of data and information being shared by countries in different forums/reports
