United Nations Office on Drugs and Crime

### Survey of Public Prosecutor Training Centers

The purpose of this survey is to permit different prosecutor training centers to share what resources are devoted to prosecutor training in other countries and seek additional resources from their own prosecution services where appropriate.

The IAP is assisting the United Nations Office on Drugs and Crime and the Office of Overseas Development Assistance and Training of the United States Department of Justice in the distribution of this survey to its organizational members and depending upon the response will consider whether to support a dedicated training center network. The IAP would encourage members to complete and return this questionnaire by **November 1st** so that the results may be compiled in order to consider whether to organize a conference of training centers to address relevant issues.

Please email completed responses to: [trainingcentersurvey@yahoo.com](mailto:trainingcentersurvey@yahoo.com).
